Sirs,I am in support of the above Petition. I have been an active Amateur Radio
Operator (Extra Class) for 34 years. I am also a Electronics Design
Engineer. Over the years,
it has been my experience that a lot of technical people have expressed an
interest in Amateur Radio, but are turned off by the Morse Code requirement.
It has been used
as a filter for these many years.   As the world advances and discards their
requirements to demonstrate a knowledge of Morse Code, so should the United
States.
I would hope that the Commission would give immediate attention to this
matter.
Herb Blair   K5AT
Carrollton, TX
